Campus Weapon Regulations Policy

Policy Statement

Baylor University (“Baylor” or the “University”) seeks to provide a safe, secure environment in which to pursue its educational mission. Consequently, all members of the Baylor community, including faculty, staff, students, University affiliates, and visitors are prohibited from possessing firearms, explosives, other dangerous weapons, and replicas of dangerous weapons (as described in this policy) while on Baylor property, in buildings where a Baylor-sponsored activity is held, and/or in a passenger transportation vehicle either owned by or contracted by Baylor University. This prohibition against weapons possession is in effect to the full extent allowed under Texas laws, including laws pertaining to weapons generally ([Texas Penal Code Chapter 46](#)) and to concealed handgun licenses ([Texas Penal Code Section 46.035](#)).

Reason for the Policy

The policy was written to enhance campus safety and security. The policy consolidates several different Baylor policies that addressed weapons on campus and establishes definitive regulations for the possession of weapons while on Baylor property. This policy also memorializes the rules and regulations enacted by the University regarding the carrying of concealed handguns by license holders on campus or Baylor University-owned property.

Individuals/Entities Affected by this Policy

This policy applies to all Baylor University students, employees, affiliates, and visitors while on campus or University-owned property.
